

boilerhouse HE range

boilerhouse HE range

The boilerhouse HE range has been specifically designed for boiler house and garage applications and is suitable for indoor installation only.

Its blue casing houses a highly efficient heat exchanger that can be easily accessed for servicing. The latest in Riello burner technology makes the utility range quiet in operation and the perfect choice in oil-fired boilers.

All HE boilerhouse models are fully factory wired with burner and thermostat and are supplied with a factory fitted condensate trap as standard. The appliance has flow and return connections off the top for ease of plumbing.

the perfect choice

in high efficiency oil boilers

Full details of the available flue options can be found on our website at www.warmflow.co.uk

Available in outputs up to 33kW

Finished in blue leathergrain casing

Compact and robust

Riello burner fitted as standard

B70HE
B90HE
B120HE

MODEL	B70HE	B90HE	B120HE
Output (kW)	15-21	21-26	26-33
Flue options	Conventional flue, low-level, high-level and vertical balanced flue		
Conventional flue size (mm)	100mm		
Efficiency % (nett)	97%		
Sedbuk rating	A		
Height (mm)	685		
Depth (mm)	600		
Width (mm)	395		
Flow connection	1" BSP		
Return connection	1" BSP
