For your way of life

R3 SERIES

Introducing the AGA R3 Series

If you love the original – on all the time – AGA, but want added functionality and to save money on running costs, then the new 13-amp AGA R3 is the perfect cooker for you. Each oven and hotplate operates independently and, with a high-speed infrared grill and the option of an induction hob, this model seamlessly marries the very latest technology with tradition to offer everything a cook needs. If you have a draughty kitchen, work from home or simply enjoy the cosy AGA warmth in your kitchen, then this is the cooker for you.

AGA R3 1004i

Alongside a hotplate offering boiling and simmering modes, this cooker has the added flexibility of a state-of-the-art two-zone induction hob with bridging function. An AGA R3 does much more than just cook. It can take the place of a tumble drier, toaster and bread maker and means you don't need an electric kettle, cutting down on kitchen clutter.

Trim: Stainless steel
Venting: Room vented

AGA R3 1004h

This model comes with two hotplates, one for boiling and the other for simmering. All cookers in the range are simple and easy to install, with no need for a plinth or flue and no regular servicing required. Ask any AGA owner and they will tell you that AGA food tastes better, as the cooker locks in all the flavour, moisture and goodness.

Trim: Stainless steel
Venting: Room vented

KEY FEATURES

- Fuel type: 2 x 13-amp electric.
- Independently controllable hotplates and ovens.
- Choice of hotplate:
 - Separate boiling and simmering hotplates that are individually controlled.
 - Hotplate that can be set to boiling or simmering plus a large 2-zone induction hob with bridging feature for use with griddles or fish kettles.
- Three ovens:
 - Cast iron roasting oven which can be used for baking when on the 'e' setting.
 - Enamelled radiant oven that can be set to baking or simmering and is used for simmering when on the 'e' setting.
 - Enamelled warming oven operated by a separate switch on the front fascia.
- High speed, infrared grill which heats up in only 2 minutes and has 3 grilling positions.
- 'e' setting to save energy and reduce useful heat into the kitchen.
- AGA branding detailed on the handrail.
- Black flush fitting side panels.

HEAT UP TIMES

	APPROX. HEAT UP TIME FROM COLD	APPROX. HEAT UP TIME FROM 'E' SETTING
BOILING PLATE	40 MINS	
SIMMERING PLATE	20 MINS	
ROASTING OVEN	2 HOURS 10 MINS	1 HOUR
BAKING/SIMMERING OVEN	2 HOURS	1 HOUR
INFRARED GRILL	2 MINS	

Note: The 'e' setting will reduce the roasting oven to a low bake temperature whilst the lower baking oven will reduce to a simmering oven temperature. This will take approximately 1 hours 30 mins.
